Chopda, Jalgaon, Maharashtra, India

Summary

Final-year Computer Science Engineering student and full-stack developer with 15+ months of experience delivering production web apps end-to-end. Developed and shipped 5+ client projects using React, JavaScript, Python, and Django, covering authentication, admin panels, and content systems. Seeking a Software Engineer role to build scalable, high-impact products.

Education

Sandip University Aug 2023 – Present
Bachelor of Technology in Computer Science and Engineering *Nashik, India*

MGTSM'S Arts, Science & Commerce College, Chopda Sep 2021 – May 2023
12th (HSC), Science *Maharashtra, India*

Experience

Full-Stack Developer & Branding Nov 2025 – Present
Self-Employed *Maharashtra, India*

- Engineered 5+ responsive client websites using HTML, CSS, JavaScript, and Django, improving client web presence
- Implemented 3 backend feature areas – dynamic forms, content management, and data handling – using Django
- Owned full project lifecycle over 10+ months across domain setup, hosting, and deployment, delivering production-ready sites for small business clients

UI/UX Designer – App Development Dec 2025 – Jan 2026
MakeTechBerry LLP *Pune District, India*

- Designed UI/UX flows and interface components over a 2-month engagement using Figma, ensuring usability and visual consistency across screens

Full-Stack Developer Jun 2025 – Aug 2025
Civora Nexus *Nashik, India*

- Architected a full-stack E-Learning Portal over a 3-month internship, delivering 4 core modules: secure authentication, admin content uploads, quizzes, and progress tracking
- Collaborated using Git and GitHub to maintain a well-structured, scalable, and maintainable codebase
- Focused on clean, responsive UI/UX design across the platform

Projects

HHH Traders – Full-Stack Business Website github.com/Ziyankhan2801/HHH-Trader
Django, HTML/CSS/JavaScript, SQLite

- Shipped a production-ready business website across 36+ commits, with a secure admin panel covering product, image, and content management
- Integrated a WhatsApp-based ordering flow; launched live at hhhtraders.netlify.app with a Django backend

Civic Education Platform *Django, HTML/CSS, SQLite*

- Created an E-Learning platform with 4 core features: user authentication, admin content management, quizzes, and progress tracking

Personal Portfolio Website github.com/Ziyankhan2801/Personal-Portfolio
HTML5, CSS3, JavaScript

- Crafted a responsive personal portfolio across 25+ commits with light/dark theme support; hosted live at ziyankhan.netlify.app
